Now that I'm moving on  
Don't you dream of crying  
'Cause I'm living in my songs  
And you're living in the moment

Tomorrow brings another day  
And the blossoms keep a blooming  
And that'll be our secret way  
For me to say I love you

Wish we'd had a few more days  
Or one more night at home  
But now you sit alone and pray  
For one less sleepless night

I'll be with you in the morning  
The evenings if you like  
We can spend all night just laughing  
Or crying by your side

You can find me at the lake  
When you need someone to listen  
I'm your quiet company  
Until the wind gets settled in

Then I'll blow until you're tired  
Or the leaves come falling down  
And when the sun comes in the morning  
You can feel me all around you

So read me twice and go on living  
I've finally said my peace  
You'll keep on a changing  
And I'll keep being me

You can keep me in your pocket  
Or in a picture on the wall  
Or better yet just think of me  
And how I loved you through the song
