

New Lover's Waltz
Dan Stepp

How many years since we wanted to believe	D	Em	A	D
To take another chance among the muses and the thieves	Bm	Dd	G	A
But you brought me to the roadhouse by the river and the stars	D	D7	G	Gm
And swayed me to the new lovers waltz	D	A	D	D7

You're flying on wings when you're dancing	G	G	D	D
And I'm wondering how angels can fall	F#7	F#7	Bm	D7
Glide to the 3/4	G	Gm	D	B7
The skies are your dance floor	Em	A7	D	A7#5
Tremble to the new lovers waltz				

Pity the lonely hearts who've got no one to hold
Part-time alchemists who can never make gold
While old lovers wallflower and shadow the hall
You sold me on the new lover's waltz

Rising on faith feeling mighty
Spinning on doubt feeling small
Make-believe who we want to be
Count out the one, two, three
Tremble to the new lovers waltz

Waters that baptize the holy mirror the satellite sky
No one wears clothes in heaven is this what it's like when we die
The righteous cricket choir sings to to it all
We're fools for the new lovers waltz

Wishing on us with a wonder
Praying the night won't prove false
Heartbeats in promenade
Soaring the milky way
Tremble to the new lovers waltz

CODA:
Don't let the music end
Why can't we just pretend
Tremble to the new lovers waltz

Make-believe who we want to be
Count out the one, two, three
Tremble to the new lovers waltz
