

Motor's Fried  
John R Miller

**VERSE 1 [GGCG | CGGD | GGCG | GGDG G7]**

Used to get inspired by dissatisfaction  
What else coulda happened, but for you to stay that way  
Running around like you weren't looking for answers  
What else coulda happened, but to never find your way

**CHORUS A [CDGG | CDGG | CDCD | GGGG]**

And those fireside nights could only go so far  
Toward understanding who you really are  
Now you're nobody's angel, you ain't nobody's star

**CHORUS B [CCGG | GGDD | CCGG | CCGG | GGDD | GDGG]**

Nothing that's broken can't be fixed  
Whether it's your jealous heart or your favorite disk  
Cause if you're broken all up inside  
You gotta find something to ease your worried mind  
You don't sink a boat just because the motor's fried

**VERSE 2 [GGCG | CGGD | GGCG | GGDG G7]**

Used to get by on perpetual motion  
When it gets lonesome it can't carry you too far  
I've been on and off that wagon 'til the lines get blurred  
When you can only think in words beauty falls apart

**CHORUS A [CDGG | CDGG | CDCD | GGGG]**

And those fireside nights can only do so much  
To hold fast to the people that you love  
Just a wanderin' headspace out of sight and out of touch

**CHORUS B [CCGG | GGDD | CCGG | CCGG | GGDD | GDGG]**

Nothing that's broken can't be undone  
Even if you're running scared and you hate everyone  
So if you're broken all up inside  
You gotta find something to ease your worried mind  
You don't sink a boat just cause your motor's fried  
You don't sink the boat just cause your motor's fried
